BIOCYCLE DETOX IV PROGRAM

Program Offering - June 17 -22 - Limited Seats

The **BioCycle Detox IV Program** is an existing and proven program first developed in Germany, and until now only offered in downtown Boston. This program is MD ordered, MD prescribed and overseen by our Boston-based MD. IV “Bars” are not MD ordered and not sustainable. They may offer a quick tuneup that lasts a couple of days to a week.

In contrast, our novel “Cadillac” tuneup will get you purring like a Ferarri for months on end! You’ll receive a total of 9 specially-curated IV bags over 6 days. Patients typically take a day between IV sessions, which take about 90 minutes each.
